## SUMMARY

Motivated Back-end & Full-Stack Developer skilled in Java Spring Boot, React, and WordPress. Currently working with WordPress and PHP, applying Java-based backend principles for API integration and automation. Experienced in API integration, payment systems (Stripe), and AI Chatbot (OpenAI) with a strong foundation in backend architecture and data-driven applications.

---

## WORK EXPERIENCE

### Personal Projects — E-Commerce Full-Stack Java (Spring Boot + React) Sep 2023 – Present

- Back-end: Developed REST APIs with Spring Boot, Hibernate, PostgreSQL/MySQL, including JWT authentication, product management, shopping cart, orders, user profiles, and payment module
- Front-end: Built responsive UI with React, integrating back-end APIs, including product listing, cart, checkout, and user profiles

### Personal Projects — Mini Projects Sep 2023 – Present

- Image Search – Search and display images using an external API
- Task Manager – To-do app with create, update, delete tasks and state management
- Blog App – Create and display blog posts with basic CRUD and form handling
- Front-end Mini-Projects – small front-end components built with HTML, CSS, JS for practice

### Customer Service / Service Design (with Web Development Responsibilities) — THE LIGHT CLASS (Contract) 2021 – Present

- Managed and optimized the company's WordPress website, improving performance and functionality.
- Analyzed client and business requirements, translating them into clear technical specifications.
- Developed and customized WordPress components using HTML, CSS, JavaScript, and basic PHP.

### Research Assistant — Work from Home Jobs (Contract) Mar 2018 – May 2019

- Conducted research, analyzed data sets, and summarized findings
- Assisted in project organization and daily administration
- Enhanced organizational, communication, and project coordination skills.

### Student Guidance Counsellor / Admin Assistant — Oxford Street English Academy Jul 2017 – Mar 2020

- Managed data entry and maintenance in databases
- Coordinated administrative processes and tracked progress

---

## EDUCATION

### Bachelor of Science Program in Computer Science

Sep 2022 - present

Sukhothai Thammathirat Open University

- Web application project using Spring Boot and MySQL; implemented form-based data input and backend logic with Java OOP.

### Bachelor of Arts Programme in International Development

Aug 2013 - Aug 2016

Mae Fah Luang University

- Providing broad knowledge, practical skills, professional development experience, and international student exchange opportunities in sustainable development.

---

## TECHNICAL PROFILE

### Technical Skills

- Languages: Java, PHP, JavaScript, SQL
- Frameworks / Libraries: Spring Boot, Spring Security, Hibernate, React, WordPress Plugin API
- Databases: MySQL, PostgreSQL
- Web & Tools: HTML, CSS, REST APIs, JWT, Git, Docker, AWS, Stripe API, OpenAI API

### Soft Skills

- Problem-solving & Analytical thinking
- Self-learning / Independent Project Management
- Communication & Collaboration

### Languages

- Thai: Native
- English: B2
- German: B1 (Duolingo, exam planned 2026)
